ABOUT THE COVER

Knowledge is important and powerful part of everyone's life. Like a "tree" portrayed in the cover it encompasses different sciences that produces unique but interconnected knowledge vital for the improvement of human lives. In the Research and Publication Center of the University of Mindanao, we believed that Research is not only achieving knowledge or generating new ideas but great responsibility lies ahead especially on disseminating the information back to the stakeholders. This journal will provide the means of sharing what we have achieved not only in the Philippines but to the world.
